

*Name of domain:* Economics

This domain exposes students to courses designed to develop the ability to apply economic analysis to real-world problems. The domain emphasizes the quantitative analytical approach to dealing with economic problems in both the public and private sectors. After completing the required Microeconomics and Macroeconomics prerequisites, students may select one course each from the theory/policy and quantitative course categories. Students have the opportunity to earn an Economics minor by allocating two of their free electives to additional Economics courses.

**Courses**

<i>Course number</i>	<i>Course title</i>	<i>Prerequisites</i>
0511-402	Principles of Macroeconomics (prerequisite for all Economics courses)	0511-211
0511-450 0511-453 0511-454 0511-455 0511-456 0511-459	<b>Select ONE of the following (Theory/Policy)</b> Benefit-Cost Analysis Intermediate Microeconomic Theory International Trade and Finance Intermediate Macroeconomic Theory Industrial Organization Managerial Economics	0511-402 ( All courses)
