
Project: Disaster Tracker

Start Time: 5:00pm

End Time: 6:15pm

Time Keeper: Jhossue Jimenez

Scribe: Jhossue Jimenez

Facilitator: Brandon Cole

Location: 70-1665(Team Rooms) / Google Hangout

Participants: Brandon Cole, Jake Peterson, Aaron Damrau, Nsama Chipalo, Jhossue Jimenez, Samuel Malachowsky, Christopher Serafin, Sharon Malfesi

Meeting Purpose:

Agenda:

1. Review Risk Document
 - a. **Many are falling out, due them being mitigated, and the project is nearing its conclusion. Remaining risks have low impact.**
2. Project Updates
 - a. Sprint 9 Review
 - i. **Sprint 9 was the UI Deliverable. Most tasks for that were implemented and/or completed.**
 - ii. **Showed Chris the demos shown to Sharon.**
 - b. Sprint 10 Progress
 - i. **Current tasks being worked on/completed, namely the mobile tasks.**
 - ii. **Ongoing task to improve the risk algorithm.**
 - iii. **Suggestion: Showing other countries besides the US is pointless - remove it? Not a big priority.**
 1. **Team will look into it, but cannot commit to anything. Because the team is just using the standard google maps api, it may involve using a different map or something else in order to only show the US.**
3. Questions

- a. Final Presentation for the team is Thursday May 7th, 2015 at 4:50pm - can the sponsors attend?
 - i. **Chris will talk to the CTO about attending the final presentation. He'll keep us updated on this.**
 - b. Data Dump?
 - i. **Chris will try to get the data. Seems the CEO has it, and is currently in the UK, so phone calls might be needed.**
- 4. Poster Concept**
- a. **Possibly include the "Datto-Hero" background and fiddle with the saturation etc.**
 - b. **A screenshot of the product.**
 - c. **Look at past "winning" posters to get an idea on what to do.**
 - d. **Pick a good tool to do the project(i.e. Illustrator, Photoshop, etc)**
 - e. **Poster due: Wednesday, April 22nd**
 - i. **Have a rough draft a week before, for feedback.**
