

Increase strafe speed

Increase field of view

- Fish eye?

Tractor beam

- Renaming?

Controller Support

- xBox Controller

Attend Chemistry Class

- Might not work
- Chemistry 208 -> Chemistry for engineers(131 course number)
- Have a faux-class about molecular geometry

Grant Money

- playing email tag
- status unknown

Testing

- give extra credit to everyone who shows up
- Different representations of molecular geometries
  - Different representations
    - Ball and Stick Model
    - Space Filling Model
    - Electron Cloud Model
  - Existing research?

Modeling

- If we go with ball and stick, **represent double bond.**
- Does it need it to be dimensionally correct?
  - The way the game currently stands, it is dimensionally correct enough
  - **The only atoms that are represented differently is water (smaller)**  
**Everything else can be the same size**
- Tractor beam would restrict molecule pick up by molecular geometries.
- Representation for color blindness
