

WINDOWS Cygwin configuration:

1) Installation of Cygwin:

- Download the Cygwin installer from the official website: <https://www.cygwin.com/>
- Youtube video to install: [youtube](#)
- Run the installer and follow the instructions to install Cygwin.
- During the installation process, select the packages required for compiling C code, such as gcc and make.

2) Setup Environment:

- Open Cygwin terminal from the Start menu or desktop shortcut.
- Navigate to the directory where you want to work using the cd command.
