

TODO

Game Description (~250 words) send to sponsor prior to meeting.

Clipboard Survey - Team name, website, blurb (Sept. 15)

Next Meeting Agenda

Novice chemists have a hard time visualizing.

Help students with learning about the geometry and size of molecules at the beginning.

www.chemgod.com - notes on chemistry can be found here (presentation on molecular geometry)

Favorite Molecules

CO₂

H₂O

NH₃

CH₄

SF₆

Priorities

Playability > Accuracy

Size, Shape > Motion

Reachability < Portability(use on smartphone) + Gamability

Considerations

Touchscreen devices in GOS? - unkn

Must Have List ?

Physics

- electrostatic reactions (molecules moving closer together)
- boundary
- kinetic / thermodynamic?

Need

- Chemistry/ Physics
- Native Code (in Android?)
- 3-D Graphics
- Game Plan (Game Theory)
