Status Overview

What was accomplished last meeting(s):
- Decided on metrics to report
  - Defects per release
  - Product defect rate
  - Continue architecture discussion
- Begin mapping page workflow
- UI wirefame design prototypes

Current team goals
- Continue architecture discussion
- Go over prototypes with Paul

Discuss differentiation of workshops and classes
- See *workshops.pdf*

Review site flowchart and wireframe UI prototypes
- See *Main Wireframe.pdf*
- *See Wireframe Prototypes.pdf*

Open Questions Q&A

When a student submits their registration form:
- Do they immediately become a Student in the system?
- Will Paul have to approve the pending student?

What -- if any -- is the maximum number of emergency contacts for a student?

What kinds of filters will you want to use when viewing attendance records?
- Date range?
- By class?
- Student name?
- Rank/belt?
