

Status Overview

What was accomplished last meeting(s):

- Discussion of check-in options.
- Updated flowchart
- Updated Wireframes
- Revised product backlog
- Went over project skeleton as a team

Current team goals

- Finalize check-in option
- Go over revised product backlog with Paul

Discussion of check-in options.

- Team's top 3 picks:
 1. QR
 2. Manual input
 3. Image selection

Revised product backlog Discussion

- Decomposed CRUD user stories
- Broke user stories down into sprints (R1S1 completed)
- Planning poker to assign points to user stories for R1S1

Brief Overview of Changes to Flowchart & Wireframes

Updated Flowchart

- Workshops separate from Programs/Classes
- Redo emergency contact workflow
- Elaborate on criteria
- Replaced Delete options with Remove

Updated Wireframes:

- Programs
- Workshops
- Payments
- Reporting
- Attendance

Open Questions Q&A

What will Paul want to see on the attendance page? (List of students? list of timestamped checkins?)
