

Actions to be Taken

Team

- Send format and required headers to bulk load students
 - see attached
- Send out installer for second release by Tuesday (11/4)

Paul

- Send an example (rows)students that conforms to the format/headers

Meeting Notes

- Checkin
 - Filter by rank not yet implemented
 - Buttons will be colored by rank color (i.e. yellow belt colored yellow)
 - Breadcrumbs to be implemented
 - Can't filter by all last name once a filter is selected
 - Once a student checks in, checkin screen goes back to program selection even if there's only ever one class checking in at a time
 - Needs to be tried on a tablet
- Checkin User
 - Use a specific user to login on tablets
 - Checkin User can only check in, can't register new students (add permission to allow checkin user to register a student)
- Ranks
 - Dynamically adjust size of name for subrank
- Attendance
 - Other operations on attendance record: remove, add achievement
 - View achievements by sorting achievements by date of checkin
 - Have to click on students tab to go back to full list of student checkins
- Report?
 - Way to view students who haven't checked in for "a while"
- Bulk Load of Students
 - Need to have headers of students table
- Registration Form
 - Print student information (ctrl + p currently) on student view page

Requirements for tablet

- Any Ipad or Android 4.1 or greater
- Latest Version of Chrome
