Actions to be Taken

Team
- Become familiar with Node-Webkit and NodeJS (for Tues 6/24)
- Share product backlog with Paul when ready (for Thurs 6/19)

Meeting Notes

User stories have been drafted and prioritized in the Product Backlog on Asana

Technology discussion:
- Node-Webkit - JavaScript/HTML5/CSS
  - + can apply desktop app design knowledge
  - + create easy-to-use desktop app
  - - not a client/server model
  - - requires more thought put into tablet interfaces

Open Questions
- Need specifics for Paul's machine
- Are cardio classes pay-as-you go (i.e. workshops)?
- **Classes:**
  - Is there a roster for a class? I
  - s check-in for planning or purely for reviewing attendance?
- **Workshops:**
  - Is there a roster for a workshop?
  - Is check-in for planning (e.g. max capacity) or purely for reviewing attendance?
  - Do workshop attendees currently need to fill out registration form?
- Do students need to sign consent forms for workshops AND classes?
