

Actions to be Taken

Team

- Get URL for latest builds to Paul in near future
- Start planning / get idea of timeline for deployment to Paul

Paul

- Find out if we actually need a physical signature / waiver

Meeting Notes

**The sooner we can get Paul running code on his machine, the better*

Programs

- Students should be able to potentially checkin to a class to which they do not belong
- Classes can have multiple meetingTimes (different days/times)
 - *Implementation of Meeting Times has been placed on the back burner*

Students

- Email/phone number should not be required
 - Some sort of confirmation if user did not enter this information
- “Cell phone number” → SHOW the format in the placeholder
- Confirmation for “Reset registration form” button
- E-sign
 - Checkbox “I am parent and/or legal guardian of....”
 - Do we legally need a physical signature?
