

Actions to be Taken

Team

-

Paul

-

Meeting Notes

Discussion of tablet-ratio wireframes with Paul

- Won't be using iPads
- Landscape vs. portrait orientation
 - How much and what will be visible when the keyboard is opened?
 - Users should be able to easily access Next/Back buttons

Demonstration of current product

- Paul will want to edit/update student information (e.g. mis-entered birth dates, photo updates, etc.) from a tablet rather than from his desktop computer
- Student form should match up to registration form
- Discussion of deployment options
 - Sending link to a URL for installation > manually sending files to Paul
 - *Paul wants to run the system locally ASAP*

Discussion of Team's best practices
